yaredwu02@gmail.com

Addis Ababa, Ethiopia

## EDUCATION

### Axum University

Bachelor of Information Technology  
2016 - 2019

## SKILLS

- HTML and CSS, JavaScript ,Dart
- Flutter framework
- Understanding of iOS and Android development principles
- React for front-end
- Responsive design
- Git and GitHub for version control and collaboration
- MySQL, MongoDB
- RESTful API design and implementation

# YARED WUBIE MESHESHA

## Full Stack Software Developer

## ABOUT ME

I am a highly motivated and skilled software developer with expertise in both Flutter and the MERN stack. With a passion for creating robust and user-friendly applications, I strive to deliver high-quality solutions that meet client requirements and exceed expectations.

### Technical Skills

- **Flutter:** Proficient in developing cross-platform mobile applications using Flutter framework, leveraging its rich set of UI widgets, state management, and integration with backend APIs.
- **MERN Stack:** Experienced in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js, with a deep understanding of RESTful API design and implementation.
- **Front-End Development:** Strong proficiency in HTML, CSS, and JavaScript, with a focus on creating responsive and intuitive user interfaces.
- **Back-End Development:** Skilled in developing APIs, server-side logic, and database management using Node.js and MongoDB, ensuring efficient data storage and retrieval.
- **Version Control:** Proficient in Git and GitHub for collaborative development, code versioning, and team coordination.
- **Agile Methodologies:** Experienced in working in Agile development environments, employing Scrum or Kanban frameworks to deliver iterative and incremental software solutions.

## WORK EXPERIENCE

### Beta Research and Development PLC

2020 – 2023

- Design and architect scalable and maintainable software systems.
- Strong understanding of the Dart programming language, including its syntax, object-oriented concepts, and asynchronous programming model.
- Extensive experience in developing cross-platform mobile applications using the Flutter framework. Proficient in utilizing Flutter's UI widgets, state management, and integration with backend APIs to create visually appealing and performant applications.
- Implement user interfaces using HTML, CSS, and JavaScript frameworks (e.g., React).
- Ensure responsive design and a seamless user experience across devices.
- Build server-side logic and applications using server-side languages (e.g., Node.js, php).
- Design and manage databases (e.g., MySQL, MongoDB) to store and retrieve data efficiently.
- Deploy and manage web servers (e.g., Apache) to host applications.
- Configure server environments to ensure optimal performance and security.
- Create and maintain RESTful APIs for seamless communication between front-end and back-end components.
- Use version control systems (e.g., Git) to manage codebase changes and collaborate with team members.

## PROJECTS

- Tender Management System Mobile App Using Flutter.
- Tender Management System using Mern and Integrate with Mobile app.
- Stock Management System Using Mern stack with mobile app.
- Student Record management System using Mern Stack
- Inventory Management system using mysql and php.
